

TESTIMONIALS

One Vision Productions captured the photography for our event and gave us a 2-day turn-around so that we could show presentations at the end of our session. They were able to do this on a consistent basis for 3 weeks...Extraordinary!

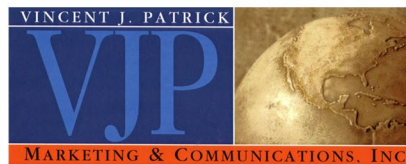

Angela Ryan, Health Communications Specialist

THE WOODRUFF
ARTS CENTER

One Vision Productions provides videography and photography services and their techs are always professional and easy to work with. Even more impressive and greatly appreciated was when we contacted One Vision Productions and asked you to produce a video for our Board of Trustees Orientation needing a 24-hour turn around. We knew that our request was a major undertaking but One Vision Productions handled it flawlessly and exceeded our expectations. In the time that I have been with the Woodruff Arts Center, there hasn't been another production company that we have entrusted with this many and variety of projects.

Tara Perry, Vice President, Strategy & Operations

Forrest and his team worked with us to produce a series of international video presentations for corporate senior level executives for a Fortune 500 company. His ability to provide strategic concept direction with innovative visual creative, resulted in exceptional acknowledgement from the client. He is an ultimate professional and clearly understands the importance of quality production and meeting time sensitive deadlines.

Vincent J. Patrick, Chief Executive Officer
