Founded by two English Barristers in Great Britain in 1946, Mensa has a triple meaning in Latin of “Mind, Table, Month” which suggests a monthly meeting of great minds around a table. As an organization, Mensa has three purposes, which are outlined in its Constitution: to identify and foster human intelligence for the benefit of humanity; to encourage research into the nature, characteristics and uses of intelligence; and to provide a stimulating, intellectual and social environment for its members.

Upon receipt of your membership dues (please see enclosed Offer of Membership for membership options), your new member packet and membership card will be forwarded within ten business days. In the meantime, we suggest that you contact your local group and begin participating in some of the activities in your local area. Below, you will find contact information for a local group representative.

We look forward to welcoming you as an active member of American Mensa and hope that you will take the opportunity to experience all that Mensa has to offer.

Best Regards,
